

TEKFEN ENGINEERING

TEN-00-QS-POL-001

QUALITY, OCCUPATIONAL HEALTH AND SAFETY, **ENVIRONMENTAL POLICY**

As Tekfen Engineering, we aim to be a leader in Türkiye and one of the respected powers in the world in the "Engineering, Consulting and Supervision" sector in which we operate, to provide a safe and healthy working environment, to realize projects that are sensitive to nature, society and the environment, to be a people-oriented company and to meet stakeholder satisfaction.

Adhering to the ongoing values of Tekfen Holding Group, continuously improving the effectiveness of our Quality, Occupational Health and Safety and Environmental Management System through consultation and participation of all our employees and employee representatives, creating value for our customers, suppliers, employees and the entire society,

To comply with all applicable conditions, including applicable national and international standards and legal regulations, regulations, standards, codes and customer specifications,

Evaluating risks and opportunities and hazards that may affect employees and the environment with a proactive approach, and to provide a healthy and safe working environment and to make it sustainable by taking the necessary measures to reduce risks and eliminate hazards,

To provide the necessary resources for increasing the effectiveness and continuous improvement of our Quality, Occupational Health and Safety and Environmental Management System,

To implement the expectation and complaint mechanism to take into account the expectations of the interested parties.

To support sustainability, to encourage recycling and reuse, to minimize waste production, to prevent waste and environmental pollution by minimizing energy and natural resource consumption, and to protect environment by reducing carbon footprint is our quality, occupational health and safety and environmental policy.
